

International Council for Caring Communities

We are preparing the second compendium featuring initiatives using *Music as a Natural Resource* to be distributed at the September 2010 United Nations MDG Summit and would appreciate your assistance in the out-reach process. Below is the general template being used to organize the information. Please distribute the template to the leaders of any such projects/initiatives requesting that the template be completed and returned to ICCC **prior to 31 May 2010. Or, send us the name and contact information as soon as possible and we will follow up.**

The initial Compendium was launched at the United Nations “Age of Connectivity: Cities, Magnets of Hope...Imagining the Possible” High-Level Working Session on 18 February 2010 to overwhelming positive acclaim and requests to continue the process. Thank you for your support.
